1. During spring 1950, a steam-powered electrical generating plant with a capacity of 50,000 kilowatts, using lignite as fuel, will be completed at Doicești. The machinery for the plant will be furnished by Czechoslovakia. The Doicești plant will be part of the electric power network feeding Bucharest, Câmpina and Brasov. A power line now under construction will connect Doicești with Azuga, at which place a transformer will be installed.
2. A power line now under construction will connect the transformer at Sinaia or at Azuga with Brasov.
3. The new Dobresti-Târgoviste power line will pass through Moroeni, where a hydro-electric plant is being built. It is planned to channel the water used by the Dobresti plant to Moroeni where a new dam is nearing completion. Machinery for the Moroeni plant will be furnished by the USSR.
